

ForCoop seminar

Work shedule

Abbaye de Sorèze 8th – 11th march 2010

4 Workshops

W1 : to better know owners' motivations and profiles , and to better adapt development actions

W2 : to better mobilize

W3 : to face climate change

W4 : to best value forest services

... in one day

= 2h 30 for each workshop

- 45 ' for Finnish presentations
- 45 ' for French presentations
- 45 ' for questions and debate
- 15' pause

⇒ Much discipline

... and fortunately 2 interpreters ! 😊

Concretely

1 reporter for each workshop, in charge of :

- **taking notes as much as possible during the debate/questions**
- **organizing with 3 other volunteers the restitution of the workshop on Thursday morning**

Concretely

Meaning

- 8h – 10 h : preparation in small groups (4 persons), without interpreters
- 10h15 - 11 h : restitution 4 x 15' per workshop with the interpreter
- 11 h – 12 h : discussions, outlooks and conclusions

Concretely

Meaning

- 2 workshops and 2 reporters for the Finnish group
- 2 workshops and 2 reporters for the French group ...

.... WHO exactly ?

Guidelines

**For debates and restitution of the workshops
(+ brief final report ...)**

- **respective weak points and strong points in Finland and in France on the targeted theme ...**
- **common practical recommendations**
- **tracks for joint and perennial collaborations (tools, methods, projects)**

And of course any other suggestion ...

In conclusion

What's going on for our 2nd seminar ?

biodiversity and Natural 2000
governance
