CRPF Rhône-Alpes

CRPF Midi-Pyrénées

Facts of Private Forest...

Barriers to development:

- Private forest ownership fragmentation
- Lack of forest knowledge of a big majority of forest owners
- Difficulty to access forest parcels
- Low integration of the private forest in the territory

A national will to go for action:

CRPF and partners of the Private Forest end up in 2003 to the *White Book of the Private Forest*.

One goal :

intensify the sustainable management of private forests

→ increase Private Forest wood supply

A tool: The Massifs Development Plans

PDM concept:

registered in the Private Forest White Book

Innovations:

Focus CRPF human resources on massifs
from **1 000 to 6 000 ha of private forest.**

Work in close partnership with **territory officials.**

Coordinate CRPF actions with the ones of the Private Forest partners
(Cooperatives, Unions, IDF) and actors of the wood sector.

At the French level

About **200** Massifs Development Plans concerning **1.25** million ha of private forest
